

Important information for the import of IFFA competitive samples from non-EU countries

Due to the current worldwide animal disease situation, the German Butchers' Association has received a special permit from the competent authorities to import beef and pork products only from the following non-EU countries.

Argentina, Bosnia-Herzegovina, Canada, Montenegro, New Zealand, Norway, Rep. Kosovo, Switzerland, Serbia, USA

We expressly point out that competition samples from all other non-EU countries can NOT be admitted to the international quality competitions of the German Butchers' Association. We regret this very much, and ask for your understanding.

We are currently investigating whether DFV quality testing by our experts may be possible in various non-EU countries. Interested companies, please contact us at c.gericke@fleischerhandwerk.de.

Nevertheless, we would be very pleased to welcome you as a guest at our stand D11 in Hall 12.0 at the IFFA in Frankfurt.
