

Important note for importing IFFA competition samples from Non-EU countries (third countries)

The German Butchers' Association is the organizer of the international quality competitions during the IFFA 2022 in Frankfurt/Main. In order to ensure the import of competition samples from non-EU countries, an appropriate import permit must be requested from the Hessian Ministry of Environment, Climate Change, Agriculture and Consumer Protection.

Due to currently unforeseeable events worldwide (plagues, epidemics, natural disasters, etc.) an application for the import permit can only be filed short term. Therefore, no concrete statements on the requirements and the necessary documentation can be taken for the time being. We kindly ask for your understanding.

Once the German Butchers' Association has received this import permit with the requirements and necessary documentation, we will inform accordingly on this website. Applicants from non-EU countries will get concrete proposals for action.
